About Company

Sky Power Solution (Pvt) Ltd is a professional solar installation company committed to delivering sustainable and reliable renewable energy solutions across Sri Lanka. Since our establishment in August 2024, we have been providing high-quality solar systems designed to reduce electricity costs and promote clean energy usage.

Our goal is to make solar energy affordable and accessible while maintaining the highest standards in design, installation, and customer service.

SKY POWER
SOLUTIONS

Vision

"To be a global leader in renewable energy, empowering communities and businesses to harness the power of the sun for a sustainable, cleaner, and brighter future."

Mission

“To provide high-quality, reliable, and cost-effective solar energy solutions. We are passionate about helping our customers make the transition to renewable energy by offering customized solar systems, excellent customer service, and ongoing support. We aim to educate and inspire our clients, driving the shift towards a more sustainable energy future.”

Director

Mr. Buddika Thilakshana is one of the founding directors of Sky Power Solution (Pvt) Ltd, bringing with him a wealth of experience in management and solar energy marketing. Before establishing Sky Power Solution, he worked at Cargills (Ceylon) PLC as an Assistant Manager, where he gained extensive experience in leadership, operations, and customer relations.

After his tenure at Cargills, he entered the renewable energy sector as a Marketing Executive in a reputed solar company. During this period, he demonstrated exceptional performance, achieving multiple sales and marketing targets and earning recognition for his dedication and strategic approach in promoting sustainable energy solutions.

Motivated by his passion for clean energy and his vision for a greener future, Mr. Thilakshana founded Sky Power Solution (Pvt) Ltd in 2024. Under his leadership, the company has successfully completed numerous on-grid, off-grid, and hybrid solar projects across Sri Lanka. His commitment to quality, innovation, and customer satisfaction continues to drive the company's growth and reputation in the solar industry.

Mr. Thilakshana believes in empowering communities through renewable energy and aims to make solar power accessible and affordable for all Sri Lankans.

Engineer

Eng. K. M. H. Sasanka Vilochana Perera is a highly skilled and dedicated professional in the field of renewable energy, specializing in solar power systems. He holds a Bachelor of Engineering (BEng) in Electrical and Electronic Engineering, a Higher National Diploma (HND) in Electrical and Electronic Engineering, and a Higher National Diploma in Network Administration.

With extensive experience in the solar industry, he has successfully completed over 800 on-grid solar projects, including large-scale commercial systems, as well as more than 100 off-grid and hybrid installations across Sri Lanka. His deep technical knowledge, practical expertise, and strong commitment to quality have made him an invaluable part of the Sky Power Solution (Pvt) Ltd team.

Eng. Sasanka Vilochana is passionate about driving sustainable energy solutions and continues to contribute to the company's mission of delivering efficient, reliable, and eco-friendly solar power systems.

Our Service

- Solar Panel Installation (On-Grid / Off-Grid / Hybrid Systems)
- Solar Power System Design and Consultation
- System Maintenance & After-Sales Support
- Lithium Battery Systems Installation
- Solar Equipment Supply (Inverters, Panels, Mounting Systems)
- Energy Monitoring and Efficiency Optimization

Our Strength

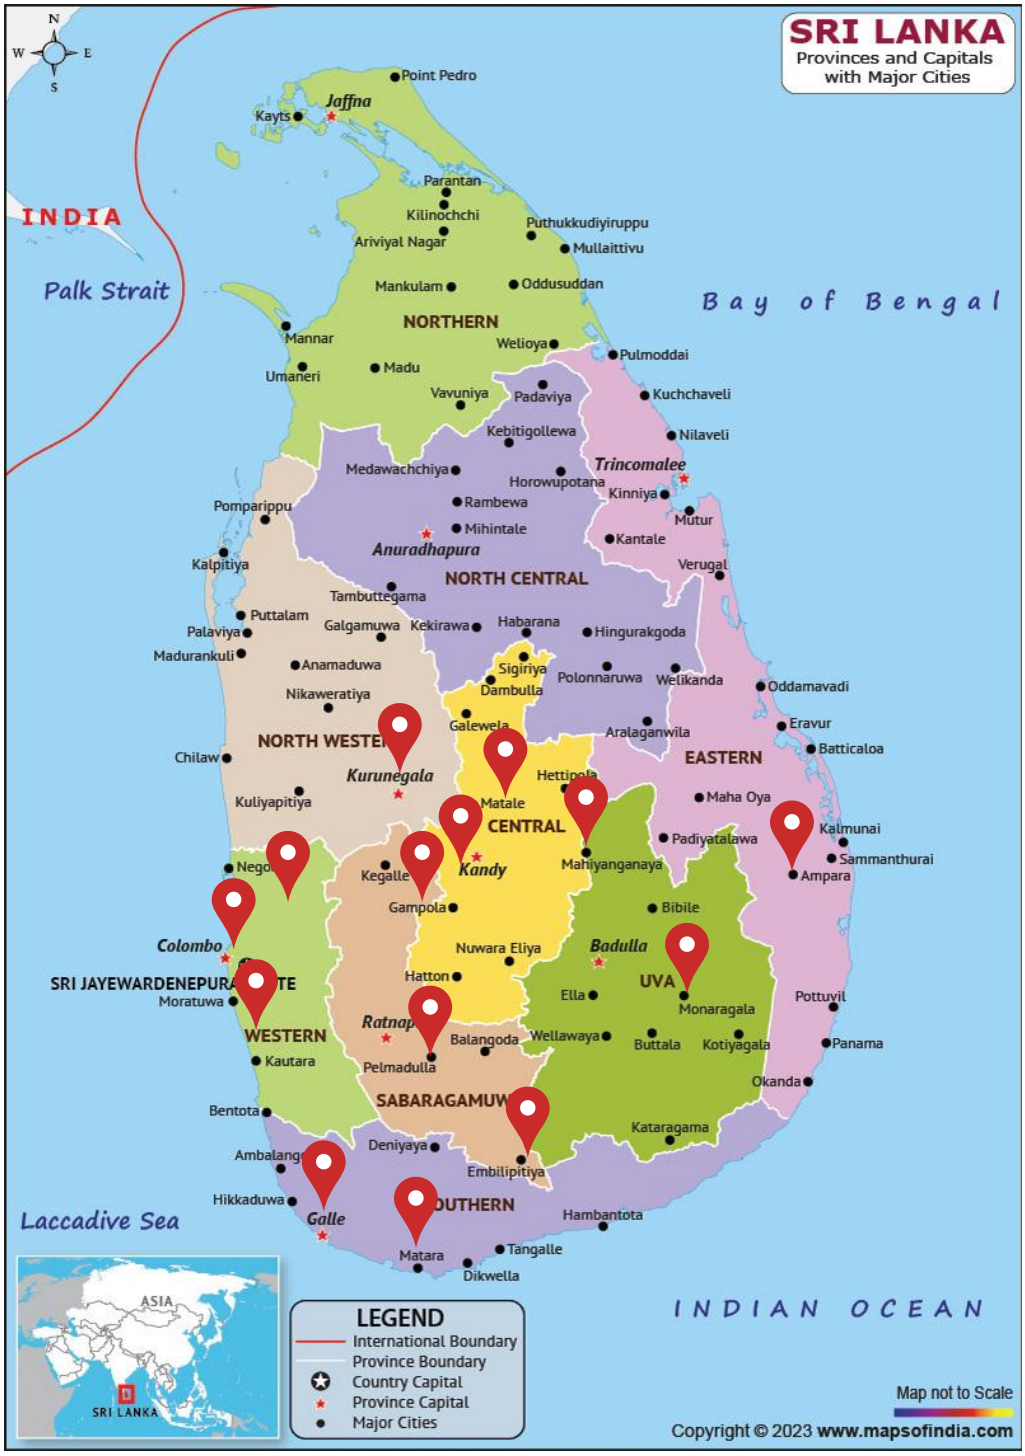

- Experienced and qualified technical team
- High-quality and certified solar equipment
- Fast and professional installation service
- Excellent after-sales maintenance and support
- Tailor-made solar solutions for homes and businesses

Our Projects

Our Operations Across Sri Lanka

At Sky Power Solution (Pvt) Ltd, we proudly serve customers throughout the entire island of Sri Lanka, delivering reliable and sustainable solar energy solutions. Our dedicated team has successfully completed on-grid, off-grid, and hybrid solar projects in various provinces — from the Southern coast to the Northern region, and from the Western province to the Eastern hills.

We are committed to bringing clean, affordable, and efficient solar power to every part of the country, helping both residential and commercial clients reduce energy costs and contribute to a greener future

How We Works

Process 01
Initial Consultation and Site Visitt
